

GOSSIP

“We live in a world of mouth”

Empathy is feeling what someone else feels.

Empathy levels are decreasing and narcissism are increasing.

1 Words Create Worlds

With words God literally spoke the world into being.

Language is both beautiful and functional.

Life and death are in the power of the tongue.

2 Labeling and Negating

Once you label me, you negate me.

Gossip is personal propaganda.

It takes two to Gossip.

3 Significance

Violence is the fastest way to significance

Satan is a title that means accuser.

Social media pulls us out of the real world.

4 Rehab

Gossip creates the illusion of a solution.

The biblical model of reconciliation is found in Matthew 18.

Walk a mile in someone else's headline.

“Keep your tongue from evil and your lips from speaking deceit.”
— Psalm 34:13
